presents:

Hop into Frogs

Join us for a free and fun evening to learn about frogs.

Ecologist Craig Cleeland will share his amazing knowledge of our local frogs and give us some tips on creating frog friendly habitat.

Landcare members will also talk about support for managing your land and the local surrounds.

After we'll cross the road to a nearby wetland. There you'll see how, with a just a phone, you can identify frogs and contribute to a Victoria-wide frog census.

Everyone welcome – suitable for all ages – there'll be pizza.
